Worasak Sriworawiboon

Senior Full Stack Developer (Web & Mobile)

Chonburi, Thailand · +66 80-569-8125 · worasak.sriworawiboon@gmail.com · Born 24 Feb 1991 · Nationality: Thai
Portfolio: wsk-24.github.io/my-github-pages · GitHub: github.com/wsk-24

Profile Summary

Full Stack Developer with 11+ years of experience (the last 9 years at Pixel Integration) building information systems for hospitals and organizations, covering the full cycle from requirements gathering and design through Web and Mobile application development to deployment and production support. Proficient in PHP/Laravel, Node.js, Kotlin, Swift and Flutter on Oracle, PostgreSQL and MySQL. Specialized in integrating with hospital HIS via SOAP/REST, real-time systems, and modernizing and securing legacy systems.

Skills

Backend	PHP (Laravel, CodeIgniter), Node.js (Express), Python (Flask), C# / ASP.NET, VB.NET
Frontend	JavaScript, React, Vue 3, jQuery, HTML/CSS, Bootstrap, Tailwind CSS
Mobile	Kotlin (Android), Swift (iOS), Flutter/Dart, publishing apps on the App Store and Google Play
Database	Oracle (Toad), PostgreSQL, MySQL, SQL Server, indexing and query tuning
Integration	RESTful API, SOAP Web Services, Socket.IO, JWT / Basic Auth, Push Notification (Firebase), OTP, Google Maps API, FTP/SFTP
Infra & DevOps	IIS, Nginx, XAMPP, SSL, AWS (EC2, Route 53), Google Cloud, Git, SonarQube, Postman, Swagger, Jira
Others	Excel/PDF Report, Crystal Reports, OWASP Security, AI-assisted Development (Claude Code)

Work Experience

Senior Full Stack Developer | Pixel Integration Co., Ltd. (Hybrid) — Aug 2017 – Present

- Develop and maintain end-to-end systems for multiple hospitals and organizations, from requirements analysis and system design through development, testing and delivery
- Integrate internal systems with hospital HIS via SOAP/REST and build APIs for external systems
- Build and publish mobile applications on iOS and Android, including upgrading the toolchain (Gradle/AGP/Kotlin) to support newer Android versions
- Deploy and maintain production servers (IIS, Nginx, SSL), troubleshoot from logs and resolve on-site issues with users
- Improve code quality and security using SonarQube and OWASP guidelines
- Coordinate with users and the team, plan work, manage changing requirements and write user manuals

Programmer | Thainakarin Hospital — Oct 2016 – Sep 2017

- Developed an internal issue-reporting system with PHP CodeIgniter supporting PACS and medical document workflows, with reports in Crystal Reports
- Developed a Windows file-management application in C# and provided user support and troubleshooting

Programmer | Royal Gems International Co., Ltd. — Apr 2015 – Sep 2016

- Developed Windows applications in C# and a sales-reporting website in ASP.NET with Crystal Reports

Key Projects

- **EyeQ – Ophthalmology Queue System** (PHP, Node.js, Socket.IO, Kotlin, Oracle)
  - Patient check-in queue that matches patients to examination devices with a real-time queue display, pulling patient data from HIS via SOAP
- **MedImage – Procedure Imaging App** (Kotlin, Swift, PHP, SOAP)
  - Android/iOS app (phone and tablet) for capturing, annotating and recording procedure images, integrated with HIS and published on the App Store and Google Play
- **Econsents – Electronic Consent Forms** (Laravel, REST/SOAP, Kotlin)
  - Forms created with a Form Builder, consent signed on tablets, and documents merged with attachments into PDF

- **EMR Viewer – Medical Record Search & Viewer** (PHP, Laravel, React, Node.js, Oracle → PostgreSQL)
  - Search and view scanned OPD/IPD medical records with print-reason logging; migrated the system from Oracle to PostgreSQL
- **Research Management System** (Laravel, REST API, Vue 3, PostgreSQL)
  - Manages publications, patents and awards; syncs data from Scopus/PubMed/TCI; KPI reports with Excel/PDF export and audit logging
- **Assessment – Staff Performance Evaluation System** (Laravel, Oracle)
  - Evaluation and approval workflow following the chain of command, with reports
- **Pettag Thailand (Freelance)** (Flutter, Laravel, Firebase, Google Maps)
  - Pet ID tag app using QR codes with lost-pet alerts, published on Google Play

Education

Bachelor of Engineering in Computer Engineering | Mahanakorn University of Technology 2011 – 2014

Higher Vocational Certificate in Electronics | Eastern Technological College 2009 – 2011
